Todd Petersen

Senior Advisor

602-828-2798
tpetersen@cratosadvisors.com

With over 20 years experience, Mr. Petersen brings diverse experience to Cratos in business operations, marketing, product development, and manufacturing within the automotive and aviation industries. His background in these industries at multiple levels combined with a deep understanding of technology offers a unique perspective when it comes to turning around and restructuring businesses to fit within the modern competitive landscape.

Prior to joining Cratos Advisors, Mr. Petersen was a part of the C-Suite at a \$100M Texas based multi-division manufacturing firm in the Automotive aftermarket for which he earned an industry award for innovation. He started and sold a software company in the automotive industry and worked at General Motors for 10 years in several product development capacities. In between stints at GM, he was a part of an automotive startup in Silicon Valley where the venture capital funded firm worked to leverage modern technology to change the automotive business model.

Most recently, Mr. Petersen co-founded and is currently Chief Technology Office of a lithium battery startup in Arizona aimed at developing and marketing lithium batteries to the aviation industry. He is also co-founder of a firm in Arizona that designs and builds electronic assemblies for military weapons systems. In addition, he has managed the implementation of ERP systems at these companies.

Mr. Petersen graduated from the University of Michigan in Ann Arbor with a Masters degree in Automotive Business and Engineering and an Undergraduate degree in Engineering from Lawrence Tech University.
